

## Job Descriptions

### **Data Scientist Machine Learning**

Location: Bengaluru, India

We are seeking a Data Scientist to join our analytics team. The candidate will be responsible for building predictive models, analyzing large datasets, and delivering actionable business insights.

#### **Responsibilities**

- Apply machine learning techniques like regression, classification, and clustering
- Work with Python, Pandas, Scikit-learn, and TensorFlow
- Handle data wrangling, feature engineering, and model evaluation
- Collaborate with cross-functional teams to deploy models

#### **Skills Required**

- Python, SQL, NumPy, Pandas
- Scikit-learn, TensorFlow, Keras
- Data visualization (Matplotlib, Seaborn)
- Strong mathematical and statistical foundation

### **Frontend Developer React.js**

Location: Remote

Looking for a creative Frontend Developer to design and build user-friendly web interfaces using React.js.

#### **Responsibilities**

- Develop and maintain UI components with React.js
- Work with RESTful APIs and GraphQL
- Optimize application for speed and scalability
- Use version control tools like Git

#### **Skills Required**

- JavaScript, React.js, HTML5, CSS3
- Redux, Webpack, Babel
- Git, REST API, Figma to Code conversion
- Knowledge of UI/UX best practices

## **DevOps Engineer**

Location: Hyderabad

We need a DevOps Engineer to manage CI/CD pipelines, containerization, and infrastructure monitoring.

### **Responsibilities**

- Build and manage pipelines using Jenkins or GitHub Actions
- Manage Docker containers and Kubernetes clusters
- Work with cloud providers like AWS, GCP, or Azure
- Automate infrastructure using Terraform or Ansible

### **Skills Required**

- Jenkins, Docker, Kubernetes
- AWS (EC2, S3, Lambda), Terraform
- Bash scripting, Linux administration
- Monitoring tools: Prometheus, Grafana

## **AI/ML Research Intern**

Location: Chennai (Hybrid)

We are hiring interns passionate about AI/ML research to work on cutting-edge problems in computer vision and NLP.

### **Responsibilities**

- Read and implement research papers
- Train deep learning models using PyTorch

- Work on projects like object detection, GPT fine-tuning, and embeddings
- Document and present findings

### **Skills Required**

- Python, PyTorch, HuggingFace Transformers
- Computer Vision / NLP basics
- Jupyter Notebooks, Git
- Strong academic/research orientation

### **Digital Marketing Analyst**

Location: Mumbai

Seeking a marketing enthusiast to handle SEO, content marketing, and campaign analysis.

### **Responsibilities**

- Plan and execute digital campaigns across Google Ads and social media
- Perform keyword research and SEO optimization
- Use tools like Google Analytics to analyze performance
- Collaborate with design and content teams

### **Skills Required**

- Google Ads, Facebook Business Suite
- SEO Tools (SEMRush, Ahrefs), Google Analytics
- Excel, PowerPoint
- Content creation understanding is a plus
